## PROJECTS

### Rapid Parcel – A Parcel Delivery Management site

[Live Site](#) [Client Side Code](#) [Server Side Code](#)

- Seamless parcel booking and management for users.
- Efficient actions like cancellation, payment, and reviews for enhanced user engagement.
- Robust features for monitoring and managing all parcels.
- Dynamic role management for users and delivery personnel, providing administrative flexibility.

**Technology :** React, tailwind css, firebase , axios, tanstack query, node js, express js, mongoose

### SavorSpot Cafe – A Restaurant Management site

[Live Site](#) [Client Side Code](#) [Server Side Code](#)

- A dedicated 'My Added Food' section allows users to view and update the full details of the foods they have added..
- The ability to view top-selling foods directly from the homepage adds a dynamic and engaging element to the user interface.
- Users can select the desired quantity of food items to place orders and manage their all ordered items.
- Sorting options by price and category provide enhanced usability for users looking to explore the available food items..

**Technology :** React, tailwind css, firebase , axios, tanstack query, node js, express js, mongodb
